

# WHAT ARE YOU PUTTING IN YOUR BODY?

Catalyn®	Centrum®
✓ \$11.00 for 90 tablets	✘ \$12.99 for 100 pills
✓ Whole food nutritional supplement	✘ Synthetic vitamin pill
✓ Contains all known and unknown vitamins and trace minerals.	✘ Contains synthetic vitamins produced from questionable sources.
✓ Twelve raw foods that are cold pressed to preserve the vital life force within.	✘ Artificial, fractionated, man-made products that create nutritional imbalances in the body.
✓ Manufactured from <i>real foods</i> grown on a 1000-acre organic farm in Palmyra, Wisconsin.	✘ Manufactured by a major drug company that knows little about nutrition.
✓ Free of any herbicides and pesticides. Tested multiple times to ensure safety.	✘ White, pure crystalline substance – void of any nutritional value.
✓ High Level Nutrition	✘ High dollar marketing campaign!
✓ Standard Process Lab's first nutritional supplement was developed in 1929.	✘ Provides a false sense of security that real nutritional needs are being met. Clinical results are obtained with vitamins and minerals derived from <i>real</i> food not from synthetic, isolated ingredients that you get with Centrum.
✓ Health experts estimate that there are over 10,000 active factors in Catalyn® including vitamins, minerals, enzymes, anti-oxidants, phytonutrients, and co-factors both known and as yet undiscovered.	✘ Many studies that use synthetic fractions of vitamins have not been successful and some have made matters worse.

**Which would you rather have?**
